

Ceglu™ coating solution

Product Code : ASLQ010001 500 mL x 1 bottle / box

Ceglu™ is a chemically defined, animal-origin-free scaffold material with excellent homogeneity and storage stability. Ceglu™ coating solution can provide a uniform surface on variety of culture substrates such as plates, flasks and non-woven fabrics to support optimal stem cell culture.

Properties

- Storage: Store at 1-30 °C.
- Shelf Life: Stable until expiry date on label.

Precautions

- See SDS:
NO OPEN FLAMES ALLOWED. This product contains hazardous liquids.
Please handle with care, using protective equipment in appropriate conditions.
Please refer to the Safety Data Sheet (SDS) before use.
- Single Use Only:
This product is designed for single use only. Do not reuse.
- Intended Use:
This product is for research purposes only and should not be used for therapeutic or diagnostic purposes. The product may not be sold to a third party or used for commercial purposes without our permission.

Key Features

- Safety:
Ceglu™ is a fully chemically synthesized scaffold and contains no animal-derived materials.
It is also a hydrophobic polymer, which reduces the risk of leaching during culture.
This product is Non-pyrogenic.
- Stability:
It can be stored for long periods at room temperature.
- Culture Quality:
This product enables attachment and proliferation of stem cells and maintenance of undifferentiation.
